AN UNEQUALED ARRAY OF OPPORTUNITIES.

ERE is a series of articles of the highest merit, which we will give all our friends the opportunity of obtaining in the carried to the friends. the opportunity of obtaining in the easiest possible way. Our object in offering these splendid premiums is to reward our club raisers.

We have been at great trouble and expense in making up this list of premiums. We have had two prime considerations in view as to the character of the articles: First, we have accepted nothing but the very best things; and, swoud, we have insisted upon arrangements direct with the manufacturers at the very lowest rates, so as to be able to give our subscribers the advantage of the lowest possible offers.

We have accepted no cheap-grade jewelry. There is no so-called aluminum gold, fire gilt, oryide, etc., which is simply polished brass, but everything in the list is of a class we can warrant exactly as represented.

We have also demanded and secured from the manufacturers only the latest and most We expect that every subscriber will find something he or she will want, and will

send us the club required and get it. We mean, of course, in each case where we say clubs or subscribers, subscribers to THE NATIONAL TRIBUNE for one year, and the full price of the paper, viz., \$1 a year for each subscriber, must accompany the name sent.

Write all addresses very plainly, giving full name, Postoffice, County and State.

Much trouble is saved by never omitting the County, because there are so many postoffices of the same name. If the County is omitted, it is sometimes difficult to tell whether Nevada or Nebraska, Mississippi or Minnesota is meant, for example.

In ordering, be particular to give the number of the article as well as the name.

The best way to send money is by Postoflice Money Order, in which case it may be

If your local Postoffice is not a money-order office, the best way is to register your letter. Money may also be safely sent by Express Money Order or Bank Drafts. Do not send local bank checks. Remember also that postal notes are no safer than money or stamps inclosed in an envelope, being cashed by anyone into whose hands they may fall.

Postage stamps are a drug, and, while taken, are very inconvenient, because we have more now than we can use, and the Government does not redeem them.

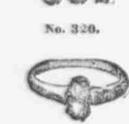

The articles mentioned on this page are only a portion of our premiums. If you desire a complete list—and it will be to your advantage to have it—send us a postal card asking for it,

THE NATIONAL TRIBUNE offers to its subscribers the most beautiful watch to be found in the market. The case is made of solid gold, reinforced or stiffened with the finest filling metal yet discovered. In this way a case is obtained which is superior to a solid gold case. This case is guaranteed to wear 15 years, and with

gold for from 25 to 30 years. It is full engraved with an intricate design of classic delicacy. It is elaborated over back, front and center, giving this timekeeper a gorgeous and unique appearance of which no adequate impression can be conveyed by a mere de-scription and newspaper cut, which, of course, fails to show the rich arrangement of color as well as form which conduces to the artistic effect obtained. The movement (commonly called works) is magnificently jeweled according to the most scientific principles, and the patent pinion and compensation balance are made of highly tempered steel. The dial or face is enameled and set with gold, and the hands are made of solid rolled gold plate, spun and wrought to the fineness and delicacy of antique lace. Offer No. 297.

A \$200 solid gold Watch cannot be bought for \$20, but THE NATIONAL TRIBUNE offers a Watch under the above number that has all the appearance and most of the good qualities of a \$260 Watch. You have never seen a Watch like this, and your jeweler has not either, although the works are familiar to any jeweler, so that in ease of accident there would be no trouble in getting it repaired. You must therefore depend upon us for the description of the latest, handsomest, and best Watch made by the great American Waltham Watch Factory. Time and money have been literally squandered in bringing this particular Watch to perfection. The movement (or works) is made according to the celebrated Waltham Riverside model, in which the two nickel winding wheels are plainly seen. The case is the thinnest filled watch-case ever made. Remember, we mean that the Watch when closed in the pocket is thin. The lids of the case are the usual thickness, and form a perfect protection for the movement. AN ALUMINUM

There is represented in accompanying cut the latest novelty in gentlemen's jewelry, which is a chain, made of aluminum, for carrying a bunch of keys or a pocket-knife without possibility of loss. It is 174 inches long, besides the attachments at either end. It is so light that it will float in salt water. It looks like silver and never tarnishes. Upon one end of the chain is a loop to slip over the suspender-button on the right side, and at the other end is a selfheking clasp, from which a key-ring cannot escape, and, indeed, cannot be removed except by one who is familiar with the working

of the puzzle-like discs. The chain is long enough that the bunch of keys or other implement may be carried to the hip pocket and used without removing it from the chain. This is a capital and, indeed, necessary article for absent-minded people and boys who lose their knives. It will be sent postpaid to any subscriber
